

Dear Sirs, I'm very concerned that a valuable service provided by XM radio may be squashed by special interests, specifically the National Association of Broadcasters (NAB) under petition 04-160. The petition seeks to prevent XM Instant Traffic & Weather channels from being broadcast to XM subscribers in dedicated areas.

I urge you to reject petition 04-160 as anti-competitive, undemocratic, and not in the interest of people subscribing to this service.

Sincerely,  
Philip K. Solomon  
Fountain Valley, CA  
XM subscriber since May 2002
